Good Afternoon,

Here is the first results of the air sample taken at SVEC. There results are from the main office and gym building. There are notes from Fulcrum regarding variation in reporting limits. He is requesting that information from the lab as outlined below. All the results are still noted as ND.

Devlin

Devlin,

First set of air samples from the quarterly air sampling event at SVEC. All samples in this set report as non-detect. I have a request into Shawn Smythe to provide information as to the variation in reporting limits (samples -04 and -07). The reporting limits are still below the action levels, but we will need to explain the variation in the summary letter.

Thank you,

Ryan
